

## All-Electric America: A Climate Solution and the Hopeful Future (Paperback)

By S Freeman, Leah Y Parks

Solar Flare Press, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The modern day Edisons have done their job. We need not wait any longer. We are poised to wake up to a world running completely on renewable energy. Waiting any longer is like saying we shouldn't have used the personal computer in 1985 until the smartphone was invented. In All-Electric America authors S. David Freeman, former utility CEO, and Leah Y Parks, a journalist in the electricity industry, explain how making the transition to an all-electric, all renewable society by the year 2050 is necessary, practical, and achievable. An energy infrastructure powered by the sun and wind running on electricity, for all our energy needs, will be reliable, cleaner, safer, and CHEAPER. It will be superior to the system we have today and will lead to a better future. It is time for the utility industry, politicians, and consumers to wake up to the opportunity that this energy transformation will provide. The resources currently allocated towards oil and other fossil fuels can instead be invested in the development of an all-renewable 21st century electricity infrastructure....

### Reviews

*This book is definitely worth acquiring. I have go through and so i am certain that i will likely to read through again again in the future. Its been printed in an exceptionally basic way in fact it is only after i finished reading this publication in which actually altered me, change the way in my opinion.*
